Superior looks and performance
from one of the UK's leading home
improvement manufacturers
– this is the Mono PLUS composite door

The Mono PLUS composite door system; traditional design, modern materials

Bowater Doors is part of the VEKA Group, which has been leading the world in the development and manufacture of PVC-U home improvement products for decades, and during that time we've built up a sterling reputation to be proud of. Our products have been used in some of the world's biggest and most prestigious building projects as well as literally thousands of homes across the globe.

It's all in the detail

The Mono PLUS composite door spent over a year in development to ensure that every aspect fulfils the demands of the trade and the consumer.

These aspects include:

- Range of 24 door styles, five exterior colours and two woodgrains
- Colourfast GRP skin to minimise the appearance of scratches
- Supplied fully framed – easy to install and ensures a perfect fit
- Stylish design-it-yourself web feature – design your own front door on www.frontdoors.uk.com

Peace of mind

Installed with care, only by recognised installers, the Mono PLUS composite door has been approved by the Police initiative scheme 'Secured By Design' which makes a Bowater Mono PLUS composite door the ideal choice for customers who want quality products, affordable prices and most importantly, peace of mind.

A new level of quality

The Mono PLUS composite door offers all the traditional good looks of timber without any of the drawbacks. While timber may crack, split or warp and of course, need regular sanding and re-painting, PVC-U requires very little maintenance and offers all the security, performance and long life expectancy of modern materials.

The tough GRP surface is highly scratch-resistant thanks to its colourfast skin, which will keep its

appearance if it should become knocked or scratched. This is mounted onto a composite material sub-frame, supported by laminated timber stiffeners and pressure filled with energy-efficient foam. The outer edge of the door is protected with a hard wearing PVC-U strip that provides a neat and durable finish.

The doorframe can also be supplied with a low-profile 15mm threshold or a larger 25mm section.

Benefits of the Bowater Mono PLUS composite door

- Delivered within seven working days from placing order
- Comes ready to fit, fully framed with glazing and hardware
- Fully sculptured, triple seal door frame styling to match the popular fully sculptured window frame designs
- Available in a choice of five colours and two woodgrains
- Selected doors are available with woodgrain on both sides
- Woodgrain doors come with matching frame if desired
- 24 door designs to choose from
- Wide range of glass designs to choose from
- Entire range is approved by the Police initiative, Secured By Design
- Ten year performance guarantee on all doors and glazing
- Ten year performance guarantee on hardware
- High-spec weatherproofing and energy efficiency with three weatherseals
- Energy efficient low threshold available for easy access
- The Bowater Doors reputation with every door
- Many styles available with matching side panels

Selected styles available with Rosewood both sides or Golden Oak both sides, plus matching woodgrain edge bands. Look out for the logo.

Secured by Design

Official Police Security Initiative

A Mono PLUS composite door will provide you with the utmost security, so you can have peace of mind that you will be safe and secure in your own home

Safe as houses

Home security is the number one priority for any homeowner, and the Mono PLUS composite door has been designed to exceed even the most stringent of expectations. You not only want a door that looks great, but one that keeps out more than cold and draughts.

It might look warm and welcoming to visitors, but the Mono PLUS composite door is fitted with top of the range hardware to provide a formidable barrier against any would-be intruders to ensure your home and possessions are protected.

Secured By Design

Approved by the Police-led initiative, Secured By Design, the Mono PLUS composite door offers exceptional security features. The official UK Police flagship scheme recognises products which incorporate effective crime prevention solutions at the design stage and only awards the accreditation to products which pass their stringent testing.

Keyless entry

The Mono PLUS composite door comes with the option of the Yale Keyfree lock system, which gives homeowners the convenience of either using the remote key, as used with a car, or manually entering a personalised code into the built-in keypad.

Keyfree has been designed and tested to meet the strict demands of Secured By Design, and also features an 80 decibel alarm to warn off would-be attackers. Powered by its own batteries, the lock will still work even in the event of a power failure.

www.frontdoors.uk.com

Create your perfect Mono PLUS composite door with our online 'design a door' feature and choose from a wide range of door styles, colours or woodgrains, glazing options, side panels and hardware which will complement your home

You're the designer

Visit our website www.frontdoors.uk.com to design your own door. See exactly how your new door will look by choosing your door's style, colour and glazing options. You can even upload a picture of your home so you can be sure your choice complements it perfectly. Save your door designs to compare and choose your ideal door.

All Mono PLUS composite doors are available in a choice of 24 door styles, five colours and two woodgrains and come ready with frame to ensure the perfect fit. Selected styles are available with woodgrain on both sides, which are supplied with matching woodgrain frame and edgeband. A white frame with a grained effect edgeband is supplied with all other doors to give a realistic finish. Many styles are available with matching side panel, including glazing.

Rosewood

Note: In certain light, the frame & door slab may appear slightly different due to the different material composition

See how you can add even more character to your home with a range of glazing options

Glazing and hardware options

Give your Mono PLUS composite door even more individuality with our choice of glazing panels and hardware. Choose from a wide array of glass designs and production techniques to create a stylish option for your home, from conventional coloured glass to elaborate Art Deco bevelling. We also offer four designs of textured backing glass and one clear backing glass.

Glazing options include:

- Leading
- Colour
- Bevelling
- Fusion art
- Etching

Side panels

Side panels to complement your Mono PLUS composite door are available with or without glazing. Choose from half and full-frame side panels. If you are ordering side panels we can design the glass to complement the door glass.

Take a look at the range of glazing designs in our image gallery on pages 30 and 31.

A choice of hardware options such as letterboxes etc are shown with each door style on the following pages.

Plus, selected glass patterns are triple glazed for further enhanced performance. Look out for the logo throughout this brochure.
