

BALUSTRADE POST SYSTEMS

The bolt-down round pre-assembled post system without handrail is designed to cut installation time. It is available in 42.4 & 48mm satin finish stainless steel 304 for internal or 3016 external applications and to suit 10mm toughened glass panels (6, 8 & 12mm rubbers are available to buy separately).

For applications which require a handrail, or any other style of balustrade please contact us.

If you require bespoke sizes, holes or shapes or even a different colour tint in glass including opaque. We offer a range of made to order laminated and toughened glass panels up to 25.5mm thick at very competitive prices.

Please note: this system is only suitable where a drop of less than 600mm is present.
