Liquid Resins

This collection of door panels are produced to the highest standard using top quality raw materials. In this brochure you will find just a few of many different designs available complemented with fine decorative glass.

Due to our policy of continual research and development we reserve the right to change specification without prior notice. Oxidisation of lead is a natural process and therefore can not be accepted as a fault. Whilst every effort is made to match the colour used in the decorative glass, due to the nature of photographic reproduction colours shown are for guidance only.

Panels are available with reinforced cores using various thickness MDF or ply board, sandwiched between the layers of high density fire resistant polystyrene - British Standard BS4 76.

All skins and insulating materials are bonded together using a moisture curing polyurethane adhesive, specially designed for the panel manufacturing and laminating industries.

A large range of obscured glass and high quality stained units are available in a wide range of designs. Our skilled craftsmen can also produce custom designs.

All panels are available with letter boxes, knockers, numbers and cut to size.

Quality products & Fast Turnaround

As this process is quick and easy to use customers are able to accurately provide costings to their own trade or retail customer. Turn round times are currently around 10 working days and come with a full 10 year manufacturer's guarantee.

Free online trade portal access

Access to our system is done by individual password issued to your business e mail address. This enables you to select the type of door you stipulate and attach fan light or side lights if required . The process is followed through each stage with frame and door attachments added. At the end of the a process the price is shown on screen with the option to quote or order provided.

Bespoke options

Customers are able to insert glass designs from our own range or their own individual bespoke choice, subject to our manufacturing approval. Door furniture can also be selected to individual choice from our range of products. Our Composite Doors are attached to a Rehau outer frame as standard, providing additional longevity to the UK's market leading Distinction Composite Door.
